

SIBLING MENS SS16 SIBLING WOMENS SS16 RESORT

SIBLING's take on the on and off pitch attire of the college footballer truly reflects his show off attitude, in searing accent colours and laces that fall undone. This spirit is most evident in the flamboyant American football inspired pieces: iconic thick laces, which are all knitted, work their way across skin tight trousers, shorts and vests. In some cases shoulders are built up to mimic pads, and draw the eye to raffia trimmed hoods in eye watering neon's. Inspired by Kehinde Wiley's portraits of the modern man who sists against backgrounds reminiscent of Ukiyo-e woodblock prints, denim comes in swirl print, subverting the american staple. Off pitch he's a flash dresser too, denying the current vogue for 24/7 gym gear. Inspiration here comes from the most unlikely of sources - the Mods. This influence is seen in fishtail parkas, suede Robert Clergerie for SIBLING loafers given a sporting edge from orange leather piping, and Edward Sexton's sharp suiting. This is SIBLING's first foray into tailoring. Made to measure, the SIBLING/ Sexton silhouettes is full shouldered yet slight, as shown by the Eton or 'bum freezer' jacket and cropped trousers, which are knit-laced at the ankle. All made in Luxury Farics' iconic wool tonic cloth, a true Mod fabric. and lined in the SIBLING swirl print.
